Get Started with the Individual Membership

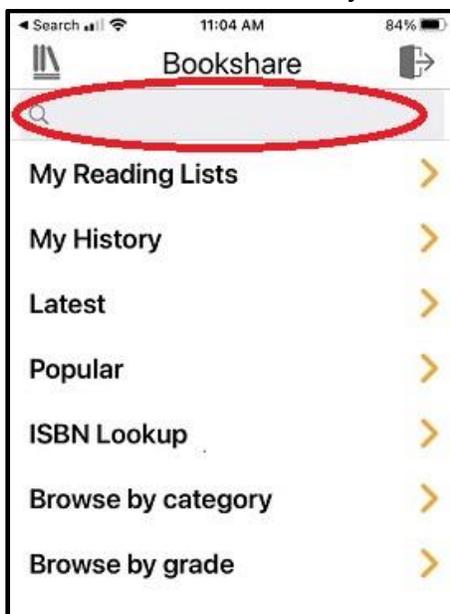

Congratulations. Your child can now read from the full Bookshare collection. Let's get started!

Bookshare books can be read on computers or Chromebooks, mobile devices and/or assistive technology devices. Review our [Reading Tools Wizard](#) to find the reading tools that work best with your devices.

To start, we recommend downloading the free Dolphin EasyReader app on your iOS or Android smartphone or tablet following [these instructions](#). The [Dolphin EasyReader Cheat Sheet](#) provides more information about searching for, and reading books on the app.

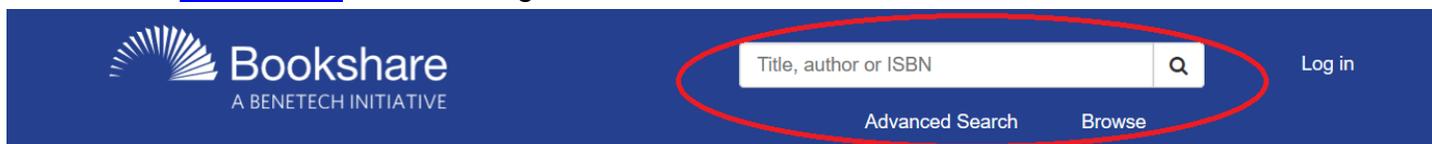

Find books on the Dolphin EasyReader app

You can search for a book in the search bar or by other options. Books your child's teacher has assigned to them on a Reading List are found under the "My Reading Lists" link.

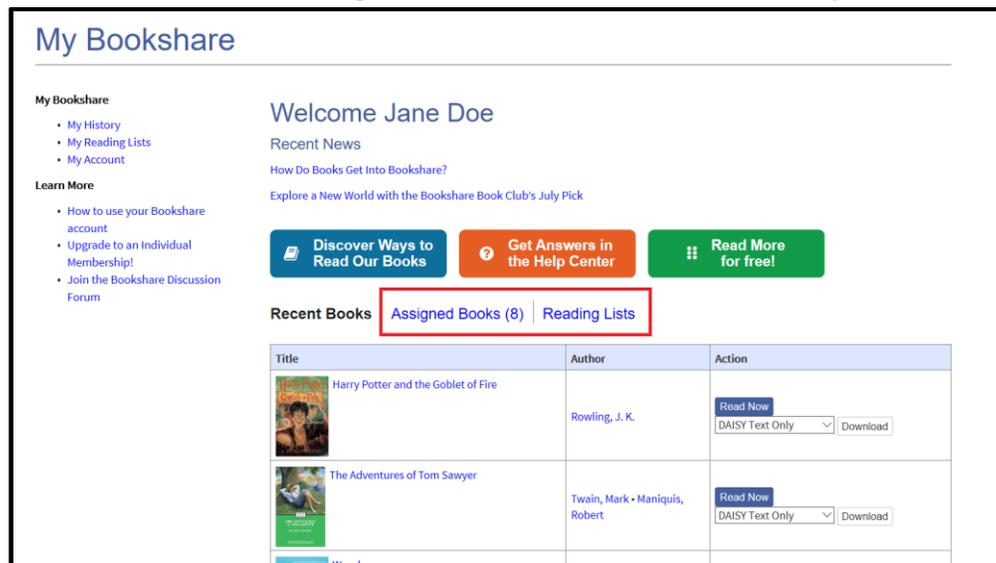

Find Books on the [Bookshare](#) website.

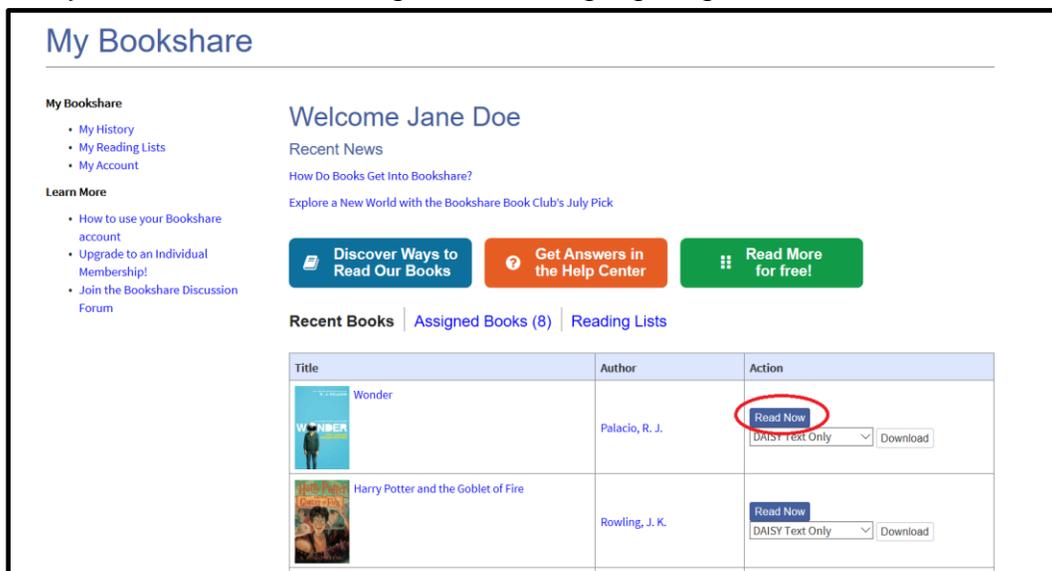

You can conduct a Standard Search, [Advanced Search](#) or [Browse](#) through Bookshare's Special Collections. [Learn more](#) about finding books.

Books that your child's teacher has assigned to them are found on their My Bookshare page.

If they want to read directly on a computer or Chromebook select the “Read Now” button and the book will open in a web browser using Bookshare’s Web Reader. Use Google Chrome or Safari browsers for synchronized self-voicing and word highlighting.
